

## WHAT WE DO

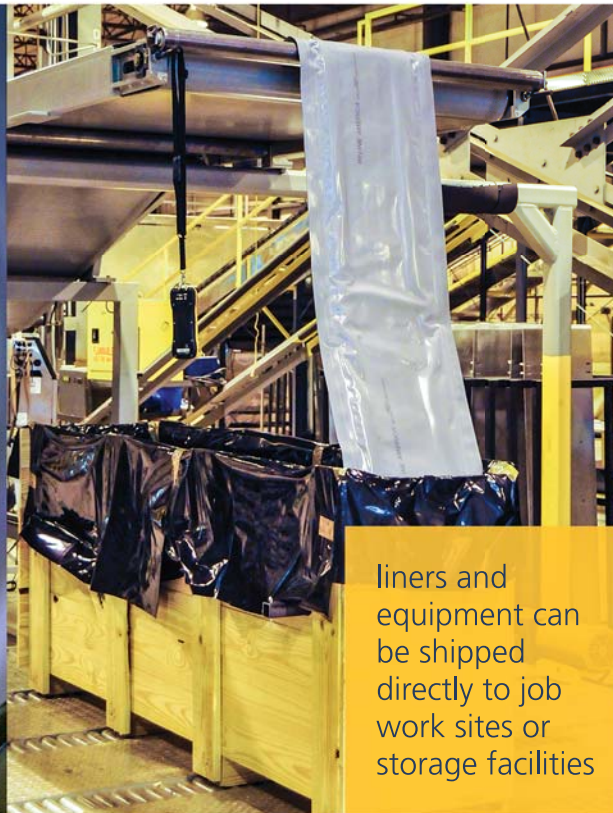

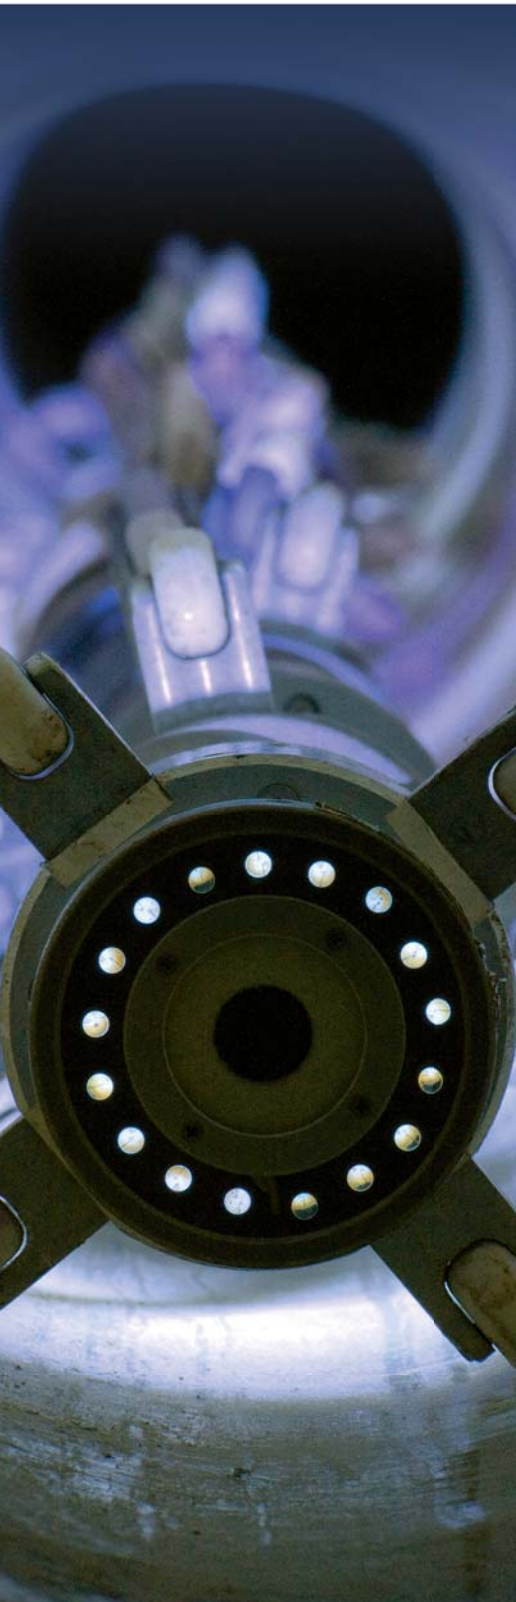

Reline America, Inc.® is the leading North American manufacturer of ALPHALINER™ (formerly known as Blue-Tek™) ultra-violet glass reinforced cured-in-place pipe (UV CIPP).

Reline America also manufactures the state-of-the-art installation equipment specific to ALPHALINER including the award-winning tamper resistant QUALITY-TRACKER-SYSTEM™ which monitors and records all critical aspects of the installation process.

We serve the infrastructure protection and rehabilitation needs of municipalities, DOTs and industries throughout North America.

Our ISO 9001:2008 Certified facility in Saltville, Virginia produces durable, dependable products that offer a user-friendly, efficient installation process that is backed by a comprehensive installer training program.

Lining equipment rigs, support vehicles and equipment are designed and built to suit each customer's specific requirements and budget.

liners and equipment can be shipped directly to job work sites or storage facilities

liners are custom produced according to your contract requirements

## ALPHALINER™

ALPHALINER 500 and 1500 are glass reinforced, spirally wound UV CIPP liners, custom-made to your specifications using the finest materials available worldwide.

ideal for circular, ovoid, arch, rectangular and special cross-sections

ALPHALINER is available in diameters of 6 to 54 inches and can be produced in continuous lengths exceeding 1,000 feet.
